Against the wind, against the words, Superstar is still here. Known by the connoisseurs as a tech brand, Superstar is improving the team and the communication efforts for 2014. Luke Padgett, Rain Randvli, Antoine Mallier, Oskars Zajarskis, Kayley Ashworth and the others team riders work for Superstar promotion. Combined with the forever tech work on frames and parts, Superstar is stepping towards a higher level of recognition. For 2014, the main thing is the Luke Padgett signature line : Marton frame, Moss fork, Moss handlebar and Moss pedals. Also, we switched from Pivotal seats to Tripod seats. And some of the other parts are here to last, like the Pimp sprocket which was released in 2004. Ten years ago... Let's talk again in 2024, see if the Pimp sprocket is still popular.

SUPERSTAR, a brand of **BMX Groupment**, Andorra, Europe.

A BMX rider wearing a blue t-shirt, blue jeans, and a black helmet is performing a stunt on a large, dark, angular structure. The rider is in mid-air, with the front wheel of the red BMX bike resting on the top edge of the structure. The structure is a large, dark, angular wall that slopes downwards from left to right. In the background, there are palm trees and a clear blue sky. In the foreground, a wooden bench with a metal frame is visible on a paved area. The overall scene is outdoors and appears to be a public space or park.
